

PUTTING PEOPLE FIRST IN ALL WE DO

WE BELIEVE...

- Every employee deserves to be treated fairly and respectfully.
- In equal playing fields for all employees and leaders.
- In open communication, education, and support for all workers, regardless of level.

As long you have employees, you'll need to protect them and give the support they need. You don't have to do it alone.

BUILDING A SAFE, INCLUSIVE CULTURE

Use our [Employee Compliance Program](#) to help build a safe, inclusive culture. Yes, that helps protect you from **employee lawsuits**, fines, and negative publicity fees. – but more importantly, it builds trust and security.

ComplyTrain™ is a complete [employee compliance software](#) providing customized HR policy documents, compliance training, and [HR Complaint Tracking](#) all in one easy to use online system. ***This is the FOUNDATION of your protection.***

How do Leaders and Managers get Trained?

Leaders receive all of the training employees receive, plus **additional** training regarding Fair Hiring, Equal Pay, Investigating a Harassment Claim, and more.

How We're Different

You'll find that some firms provide compliance training but have no way to provide the customized employee policies you need. That leaves you at [high risk](#) of outdated policies that don't sync with your training.

We've Got You Covered

We are **not** your typical HR Software.

Our #1 priority is helping you become compliant to both federal and state HR regulations based on your company's size, function, and location.

Other HR Software solutions can get really complicated, very quickly. They desire to be a "catch-all" for overall HR functions, including payroll, benefits, taxes, and more. As a result, they do not put enough attention on HR Compliance, but simply add it to the list of features in the software.

The ComplyTrain software gives you the freedom to focus on running your business while providing the **vital Employee Compliance** you need.
